

Mitiku Tadesse

Software Engineer — Immersive 3D Web & Applied AI

Ethiopia — local & remote

PROFILE

Software engineer (BSc, Adama Science and Technology University) with 7+ years building for the web. Specialist in immersive 3D websites with AI agents working inside them, AI agent integration, and n8n/Make workflow automation. Also available for AI training, evaluation, and data-quality platform work.

EXPERIENCE

Independent engineer — 3D web, AI agents & automation

Self-employed — Present

- Shipped a 3D streaming TV platform — immersive web experience in production.
- Built a restaurant management system in daily operation.
- Currently building an instrumented agentic storefront (3D + AI agent + n8n).
- AI workflow automation with n8n and Make for business bottlenecks.

EDUCATION

BSc, Software Engineering — Adama Science and Technology University
